

**MIKE ASHEY  
PRODUCTIONS**

**1/48 SCALE F-104J STARFIGHTER  
MANUFACTURER : HASEGAWA  
MODEL BUILT BY : SCOTT WELLER**

**KIT DESCRIPTION  
AND  
BUILDING NOTES**

This 1/48 scale kit by Hasegawa has excellent fit. The surface detail is very delicate, with the only exception being the slightly overdone rivet detail on the wings. The model is painted with Gunze colors. The decals are from the kit and Platz. The Platz decal sheet has finely rendered lettering for all the access panel labels which were all over the surface of the F-104. Scott spent a lot of time applying all the surface letter decals and not one of them silvered.

**GREAT JOB SCOTT WELLER !**
