

MIKE ASHEY PRODUCTIONS

**1/35 SCALE OPEL BLITZ 3(T) TYPE S
MANUFACTURER : HELLER
MODEL BUILT BY : MIKE ASHEY**

KIT DESCRIPTION AND BUILDING NOTES

This kit was a lot of fun to build and it fit together very well. I detailed the cab area and added some details to the engine. I cut out the left door and the left engine cover so that they could be repositioned to display the interior details. Model master enamel paints were mixed to achieve the colors and the highlights on the canvas. You can see the techniques I used for detailing this kit in the book section of this web site (Modeling Realistic Tanks and Artillery).
