**USS ALABAMA, BB-60 PICTURE REFERENCE  
PART-I  
HULL AND MAIN DECK**

The USS Alabama rests in Mobile Bay, Alabama and her configuration is almost exactly as she appeared at the end of WW-II. Although Alabama is showing her age, she is still majestic. Mike's photos provide a lot of detail shots of aspects of the ship that are needed to add detail to the Trumpeter 1/350 Scale Alabama. The reference is broken down into 3 parts due to the fact that there are 175 pictures.
